

School supplies for Bromakoté

The AMAN-International Foundation donated school supplies to the "Hélène Hoba" elementary school in Adjamé

Abidjan-Bromakoté (03.11.2006) - This Friday, the Founding President of the AMAN-International Foundation (FAI), Marie Ginette AMANI, offered an important donation of school supplies to the public elementary school "Hélène Hoba", located in Bromakoté, a poor district of the township of Adjamé, one of the most precarious districts of Abidjan. After the "Cruise of the Heart" last September which was a great success and which allowed the AMAN-International Foundation to give scholarships to several NGOs and associations, an FAI delegation made a field visit to Adjamé after which it identified this public elementary school of more than 3,000 disadvantaged children.

Always present at the side of the underprivileged through its proximity actions, the AMAN-International Foundation has once again marked a most useful action at the beginning of the new school year by offering school textbooks composed of books, slates, notebooks, chalk, pens, erasers, etc. thanks to a generous donation from the "Librairie de France" - represented at the ceremony by Médard PRAO - whom the President of the FAI warmly thanked for her contribution to the success of this charitable action.

This action, the first of its kind in this school, was welcomed with an explosion of joy by the students who offered a soccer match by the mini-young girls and boys dressed in T-shirts bearing the logo of the AMAN-International Foundation and the Librairie de France.

After the official handing over of the donations and the visit of the school ("Hélène Hoba", GS Château IEP, Adjamé 1), the ceremony ended with a word of encouragement from the Founding President Marie Ginette AMANI addressed to the Director of the school, Mathias Romain DEHO, and to its teaching staff.

She promised that the AMAN-International Foundation will follow the evolution of this school in a special way and will try to support it as best as possible. A beautiful and moving hymn in honor of the AMAN-International Foundation was presented by the young and talented artist Steven. It is in a manifestation of the general euphoria of joy expressed by the students that the representatives of the FAI took leave of their hosts.
