

**"Zu Gast in Afrika": The President of FAI once again signed her novel "ALLIANCE" in Berlin**

**Berlin (17.02.2012) - The Founding President of the AMAN-International Foundation was invited to Berlin to present her second book entitled "ALLIANCE" on the occasion of an event on diversity, tolerance and peace between peoples.**

ALLIANCE - is the title of a novel by the author known as Marie Ginette AMANI.

Marie Ginette AMANI was invited to participate actively as an author in the Berlin socio-cultural event called "Zu Gast in Afrika", in other words "Guest in Africa".

This event aimed at making Africa better known to the German public was composed of various artistic performances including a presentation of the book "ALLIANCE" written by the Founding President of the FAI and published in 2007.

This novel was invited to participate in this program because it presents - beyond a love story between two people of different races - an invitation to tolerance, mutual acceptance and peace between peoples, but it also advocates for the promotion of cultural diversity.

After the speech of Dr. Makase NYAPHISI, Ambassador of the Kingdom of Lesotho, sponsor of this event, Marie Ginette AMANI was invited to present her book.

After a reading of some poignant passages of the book - followed by a spontaneous staging with Christian, a young German actor for the occasion representing Jacques, the lover of Grace, the main characters of the novel - the writer made an analysis of the important themes addressed by the book.

The performance was greatly appreciated by the public who came to the author's stand at the end of the artistic performances for exchanges and to get the book signed.
